ABBREVIATED QUALITY STANDARDS

For

NAEYC Accredited Programs

Updated April 2022

National Association for the Education of Young Children (NAEYC) accredited programs pre-qualify for the QUALITYstarsNY Standards indicated in gray, having already demonstrated compliance with these Standards as part of their accreditation. **NAEYC accredited programs do not need to submit evidence for Standards in gray**; they will automatically earn points these Standards in the rating process.

The QUALITYstarsNY Standards represent the best practices and policies in early childhood care and education. Developed by leading experts in the field of early childhood learning and development from across New York State and then validated by research, QUALITYstarsNY Standards are used to assess and rate the quality of an early childhood program.

Programs participating in QUALITYstarsNY earn points toward their rating for meeting these key quality indicators. Programs are rated 1-5 Stars with 4 and 5-Stars representing an exceptional level of quality.

LEARNING ENVIRONMENT

Research Rationale: There is substantial evidence that classroom environment features are central to program quality and some, though limited, research suggests that varied and appropriate classroom materials support children's development. Research shows that the quality of teacher-child interactions contributes to quality in early care and education settings and there is substantial evidence that children with involved and responsive caregivers fare better on a wide variety of child development measures. According to a significant body of evidence, the use of a developmentally appropriate curriculum is related to several measures of program quality and positive child outcomes. There is a moderate amount of evidence that developmentally-appropriate assessment is associated with improved child development outcomes.

Classroom Environment (CE) - 60 points

CE 1	Program administrative staff attends training on the Environment Rating Scales (ERS).	Supervisors and administrative staff are versed in the ERS so they can coach and support teaching staff.	❑ Evidence in The Aspire Registry that at least 1 administrator has attended the relevant training within the previous 15 months, verified with training certificate	❑ Evidence in The Aspire Registry that at least 1 administrator has attended the relevant training within the previous 15 months, verified with training certificate	2
CE 2	Program completes an ERS self-assessment using the appropriate scale(s) and writes an improvement plan to address subscale scores below 3.25.	Administrators and teachers are familiar with the ERS so they can go through the scales and identify ways to improve.	❑ One copy of a completed ERS self-assessment report (including overall and subscale scores) ❑ One copy of a written improvement or action plan for all subscales with a score below 3.25	❑ Completed ERS Score Sheet including sub-scale average scores. Score sheet must show Date of Observation (dated within the 15 months prior to Standards Inventory submission) ❑ Written improvement plan, with dates for completion for all sub-scale average scores below 3.25	8

Programs do not submit evidence for Standards CE 3 – CE 5. These Standards are only applicable after Standards Inventory submission for programs that earn a Provisional Rating of 3-5 Stars. For eligible programs, an ERS assessment will be conducted by QUALITYstarsNY's independent assessment team and the average scores will be used to determine the points that will be calculated into the program's Active Rating. If a program earns an average score below 4.25 on their ERS assessment, they will automatically decrease a Star level for their Active Rating.					
CE 3	Program has an <u>independent</u> ERS assessment and achieves an overall score of 4.25 − 4.99.	An external observer can provide an unbiased assessment of the learning environment.	***Program does not submit evidence for this Standard.*** *If applicable, completed ERS report(s) is automatically sent to QUALITYstarsNY from the independent observer.*	***Program does not submit evidence for this Standard.***	30
CE 4	Program has an <u>independent</u> ERS assessment using the appropriate scale(s) and achieves an overall score of 5.00 − 5.49.	An external observer can provide an unbiased assessment of the learning environment.	***Program does not submit evidence for this Standard.*** *If applicable, completed ERS report(s) is automatically sent to QUALITYstarsNY from the independent observer.*	***Program does not submit evidence for this Standard.***	40

Child Observation & Assessment (COA) - 20 points

CODE	STANDARD	INTENTION	DOCUMENTATION	MINIMUM REQUIREMENTS	POINTS
COA 1	Program has in place a child observation and assessment policy that includes the collection and protection of assessment results and sharing assessment results with families.	Program should have a written policy about the collection of observation and assessment information in order to ensure consistency throughout the program. The policy should include the rationale and procedures for collecting and sharing information.	Written policy or practice statement (i.e. program letterhead/logo is clearly visible or it is clear that it is part of a manual/handbook) that references: ❑ The type(s) of child data collected	Written policy or practice statement (i.e. program letterhead/logo is clearly visible or it is clear that it is part of a manual/handbook). COA 2	Program collects information at enrollment on children's development, including social-emotional concerns, home language(s), preferences and any special needs.	Programs should gather information about each child and family during enrollment, in order to inform curriculum planning, help guide children's learning, and understand family circumstances from day one. In addition to gathering information on any special needs, general information on children's preferences and background should also be collected.	❑ Copies of a completed enrollment form for 3 different children, (**with identifying information removed – label submitted evidence as child 2, child 2, child 3**). *If information is collected on multiple forms, include an example of each completed form for each child.*	Evidence must reference all of the following: ❑ 3 children (**with identifying information removed - label submitted evidence as child 1, child 2, child 3**) ❑ Child's physical development ❑ Child's cognitive development ❑ Child's social-emotional development ❑ Home language(s) of child ❑ Child's dietary needs and preferences ❑ Child's date of enrollment	2
COA 3	Program documents the developmental status of each child within 45 days of entering/starting the program using a child development screening tool.	Before or soon after starting a program, a child should be initially screened for basic developmental levels in order to help define individual learning goals and identify any potential special needs.	❑ Copies of a completed developmental screening form for 3 different children (**with identifying information removed - label submitted evidence as child 1, child 2, child 3**). FAMILY ENGAGEMENT

Research Rationale: There is substantial evidence that parent involvement and parent-provider communication is important for high quality early childhood education and that parent-involvement is related to child development outcomes. Parent-provider communication in the parent's dominant language is necessary for optimum results.

C 4	Program meets one-on-one with parents about their individual child's developments at least twice a year.	Children grow fast and sometimes behave differently at home and school. Therefore, it is important for families and teachers to intentionally meet at least twice a year for a two-way discussion about their child's development, including physical well-being, health, and motor development; social and emotional development; approaches to learning; cognitive and general knowledge; and language, communication, and literacy. Teachers and families will be able to use this shared knowledge to support learning at home and school.	Evidence for one child that demonstrates that meetings with parent(s) occurred on at least 2 different dates within the 15 months prior to Standards Inventory submission *Acceptable types of evidence include:* ❑ Meeting invitation **OR** ❑ Calendar showing schedule of teachers' conferences **OR** ❑ Conference announcement(s) **OR** ❑ Parent/family handbook excerpt **OR** ❑ Sign-in sheet(s)	Evidence must demonstrate: ❑ Documentation for one child dated within the 15 months prior to Standards Inventory submission ❑ Meetings occurred on at least 2 different dates dated within the 15 months prior to Standards Inventory submission ❑ Between at least one parent and one teacher with regards to child's development	3
C 5	Program communicates with families in writing about staff member's educational qualifications and professional experience.	Families are informed, in writing, of the qualifications of the people who are taking care of and providing learning experiences to their children so they can trust and develop significant positive relationships.	Evidence must clearly show staff qualifications and experiences for at least 1 current administrator and 1 current teacher. *Acceptable types of evidence include:* ❑ Parent/family handbook excerpt **OR** ❑ Staff member profiles **OR** ❑ Website	Evidence must include: ❑ Written communication to families about staff qualifications and professional experience (e.g., memo, newsletter, handbook or website) Educational qualifications and experience for: ❑ At least 1 current administrator **AND** ❑ At least 1 current teacher	3

C 6	Program communicates with families about program activities and policies in a group setting.	Families are informed in a group about what they need to know about the program. This is important as it allows for feedback and also is more dynamic and informative than just providing passive literature on the subject(s). Group meetings allow for questions, comments and interactions between families.	Evidence must demonstrate that program communicates with families in a group setting about activities and policies. *Acceptable types of evidence include:* ❑ Announcement, invitation, or flyer **OR** ❑ Agenda **OR** ❑ Sign-in sheet	Evidence must reference: ❑ Group setting (i.e., during a program orientation or back to school day/night) ❑ About program activities and policies	3
C 7	Program provides written information about family resources and supports, such as information on child development, oral health, child health insurance, tax credits, and child care financial assistance.	It is helpful to families when programs provide information about family resources and supports in the community.	Evidence must show that written information about relevant family resources and supports is accessible to families. Program must provide all of the following: ❑ Reference to the availability of resources **AND** ❑ 3 sample resources/supports offered (e.g., information on child development, oral health, child health insurance, tax credits, child care financial assistance, and other)	Evidence must include **ALL** of the following: ❑ Written statement such as a note to families or statement in family handbook referencing available resources and supports. **AND** ❑ 3 sample resources/supports offered (e.g., information on child development, oral health, child health insurance, tax credits, child care financial assistance, and other)	5

Transitions (T) - 15 points

CODE	STANDARD	INTENTION	DOCUMENTATION	MINIMUM REQUIREMENTS	POINTS
T 1	Program has a written policy and/or procedures for transitioning children into the program, which includes providing information on separation and attachment to families.	Separation is difficult for both young children and their parents/families. Program staff should be knowledgeable about the meaning of separation at different ages and have the skills to help both children and parents/families to understand and cope with separation. Having a specific written policy demonstrates a program's awareness about transitions and acknowledges its significance to both staff and family member in early care and learning settings.	Evidence must reference ways in which the program supports families when <u>starting</u> at the program, including providing information on separation and attachment. *Acceptable types of evidence include:* ❑ Policy statement (i.e. program letterhead/logo is clearly visible or it is clear that it is part of a manual/handbook) **OR** ❑ Procedures	Evidence must reference: ❑ Ways program supports families when <u>starting</u> at the program ❑ Separation information ❑ Attachment information	3
T 2	Program has a written policy and/or procedures to support children and families during transitions within the program (i.e. moving from the threes class to the fours class or when a teacher leaves and a new one is hired).	A program should aim to reduce the number of transitions that children experience. However, some changes are inevitable and the program should follow careful procedures to help children and their families adjust to new routines. When possible, families should be included in the planning for changes in their child's routine or primary caregiver. Time should also be allowed to support the changes with gradual implementation.	Evidence must reference ways in which the program supports families transitioning <u>within</u> the program. *Acceptable types of evidence include:* ❑ Policy statement (i.e. program letterhead/logo is clearly visible or it is clear that it is part of a manual/handbook) **OR** ❑ Procedures	Evidence must reference: ❑ Ways program supports families transitioning <u>within</u> the program	3

When possible, families should be included in the planning for changes in their child's routine or primary caregiver. Additionally, in the case of children going to Kindergarten, programs should have resources to aid families in making this large transition to school.	❑ Policy statement or parent/family handbook excerpt (i.e. program letterhead/logo is clearly visible or it is clear that it is part of a manual/handbook) **OR** ❑ Procedures **OR** ❑ Sample of information given to families (e.g. kindergarten registration) **OR** ❑ Evidence of meetings or other supports, such as partnership documentation, lesson plans, or parent meetings	transition out of the program and into another program	
T 4	Program promotes the quality and continuity of teacher-child relationships through teacher training, teacher scheduling or other policies such as ensuring no more than one transition within the child's first two years.	In order for children to thrive and learn in early childhood settings, they must feel secure and relaxed and have a strong sense of connection with their caregivers. The teacher-child relationship requires time and consistency to develop. The better a teacher knows the children and families in her program, the better she will be able to understand the individual child, interpret behaviors, and support development. This is particularly important for children under three years of age. (The NYS Infant Toddler Resource Network recommends that children have only one caregiver from enrollment until age three).	Evidence must demonstrate how program promotes the quality and continuity of child-teacher relationships. *Acceptable types of evidence include:* ❑ Policy statement or parent/family handbook excerpt (i.e. program letterhead/logo is clearly visible or it is clear that it is part of a manual/handbook) **OR** ❑ Sample written transition plan **OR** ❑ Staffing schedule	Evidence must demonstrate: ❑ How program promotes the quality and continuity of child-teacher relationships	6

QUALIFICATIONS AND EXPERIENCE

Research Rationale: *There is substantial evidence that teacher education and training are related to other measures of program quality and child outcomes. Similarly, research shows that director professional development is related to other measures of program quality and some, though limited, evidence suggests that director professional development is related to child outcomes. While there is limited and conflicting evidence that staff experience is related to other measures of program quality or child development outcomes, staff experience is valued by consumers.*

Note: A program can earn points in both the administrator and the teaching staff categories. Points are earned for the degrees and coursework completed AND for each of several credentials AND for experience. **For Standards in the Qualifications & Experience category, teaching staff points are weighted by part-time or full-time status and averaged** (to account for programs with different numbers of staff). Documentation pertaining to professional qualifications and experiences are collected and verified through The Aspire Registry for New York's early childhood workforce. Programs must review their Qualifications & Experience Report, available in their QUALITYstarsNY Profile, and confirm that it reflects all qualifications, education, and trainings for their staff BEFORE submitting their Standards Inventory for rating.
